

Parents in Touch

Understand Today's Youth

Hey, Parents! Do you have kids?
Then Parents in Touch is just for you! Times have changed since we were in Junior High and High School. As parents, it's important to recognize the challenges facing our kids today and understand what the world looks like through their eyes. Equipped with this knowledge... plus a lot of hard work, support, and prayer... you'll survive and maybe even thrive, during these critical teenage years!

Upcoming Topics:

- November 15, 2009
MyTube? SpaceBook?
YouFace? Come and make sense of it all! All things internet and the challenges and advantages that come with it.
- December 6, 2009 ~ *Understanding the Teenage Brain*
- January 7, 2010 ~ *Relationships and Dating*

And so much more!

At each event you'll enjoy:

- Insight into the teen culture
- Practical ideas from our presenters
- Open forum-discussion and support from other parents
- Time of prayer and encouragement from the Word
